Our Histories Revealed

African Stories in Hull and East Yorkshire

Get involved

The exhibition **Our Histories Revealed** is part of the HLF funded project Africans in Hull and East Yorkshire. The project looks to uncover the history of people of African descent from 1750 to 2007. The project encourages community participation from anyone with an interest in regional and British social history and is a different way of looking at the diverse fabric of our lives.

The project is well underway, with a substantial archive accessible online at africansinyorkshireproject.com

The comments section shows how the project has captured the public's imagination. There are many lines of enquiry on a wide variety of themes but we are particularly keen to increase our '*family history bank*'.

We would be delighted to hear from you if you have a family history, photograph or know of anyone of African heritage who is interested in sharing their story. Your story might feature in our exhibition at the Treasure House! Contact us or visit the website to share your story.
